SUMMARY

Motivated Full Stack Developer with hands-on experience in building modern web applications using React.js, Next.js, Node.js, Express.js, MongoDB, MySQL, and Supabase. Skilled in developing responsive user interfaces, RESTful APIs, authentication systems, and scalable database solutions. Strong understanding of software development principles, three-tier architecture, and secure web application development. Passionate about problem-solving, clean code, and building user-friendly digital products.

EXPERIENCE

Junior Full Stack Developer January 2024 – Present SKILLS Career Institute, Jaranwala, Pakistan

- Developed and maintained web applications using React.js, Next.js, Node.js, and Express.js .
- Built responsive and user-friendly interfaces using HTML5, CSS3, Bootstrap, and Tailwind CSS.
- Developed RESTful APIs and integrated frontend applications with backend services.
- Worked with MongoDB and Supabase for database design, management, and data operations.
- Applied software development best practices including Git version control and code reviews.

TECHNICAL SKILLS

Frontend Technologies

· HTML5, CSS3, JavaScript (ES6+)
· React.js, Next.js
· Bootstrap, Tailwind CSS

Backend Technologies

· Node.js, Express.js
· RESTful API Development

Databases & Backend Services

· MongoDB
· MySQL
· Supabase

Authentication & Security

· JWT Authentication
· Role-Based Access Control (RBAC)

Tools & Platforms

· Git & GitHub
· Postman
· Vercel / Netlify

PROJECTS

Personal Mentor

- Developed a personal mentoring platform focused on learning, guidance, and productivity.
- Built responsive interfaces using Next.js, React.js, and Tailwind CSS.
- Implemented user authentication and profile management using Supabase.
- Integrated Supabase for database management and data handling.
- Built reusable components and optimized the application for desktop and mobile devices.

Tech Stack: Next.js, React.js, Tailwind CSS, Supabase

LearnHub – Learning Management System

- Developed a full-stack learning management system using Next.js, MongoDB, and Tailwind CSS.
- Built responsive interfaces for students, instructors, and administrators.
- Implemented authentication, course management, playlist-based learning, progress tracking, quizzes, and course purchasing.
- Integrated MongoDB for managing users, courses, playlists, and learning data.
- Implemented role-based functionality and structured course workflows.

Tech Stack: Next.js, React.js, MongoDB, Tailwind CSS, JWT

EDUCATION

Bachelor of Software Engineering (BSSE) **(**2025 - *In Progress***)** *Virtual University of Pakistan – Faisalabad*
